

CAMPUS SECURITY REPORT

Annual Security Report and Crime Statistics
Calendar Years 2023, 2024 and 2025

OCTOBER 1, 2026

CAMPUS SECURITY, EMERGENCY RESPONSE, AND CRIME REPORTING POLICIES AND STATISTICS

It is the goal of InterAmerican Technical Institute (ITI) to offer educational training in a secure and crime-free environment. This Annual Security Report is published in compliance with the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act (the Clery Act), 20 U.S.C. § 1092(f), and its implementing regulations at 34 CFR 668.46, as amended by the Violence Against Women Act (VAWA) and the Stop Campus Hazing Act. The policies and procedures described in this report have been implemented to ensure a safe environment for students and employees and to give all personnel standard procedures to follow when reporting emergencies and crimes. This report contains crime statistics for calendar years 2023, 2024 and 2025.

Annual Distribution

By October 1 of each year, ITI distributes this report to all currently enrolled students and all current employees. Students and employees receive an individual notice that includes a statement of the report's availability, a brief description of its contents, and the exact web address where it can be found: www.iti.edu A paper copy is available free of charge upon request from the Admission Department or the School Director.

Prospective students and prospective employees receive a notice of this report's availability, a description of its contents, and the web address where it can be accessed, together with the opportunity to request a paper copy, before enrolling or accepting employment. The complete report is also reviewed with new students during orientation and with new employees during new-employee orientation.

Location Covered by This Report

The policies and statistics in this report apply to ITI's main campus, which houses the administrative offices and training facilities at **9600 SW 8th St #44, Miami, FL 33174**. ITI is a private, postsecondary institution offering programs in Pharmacy Technician, Patient Care Technician, Medical Assistant, and Home Health Aide.

ITI does not own or control on-campus student housing. Accordingly, the missing student notification procedures and the annual fire safety report required for institutions with on-campus student housing do not apply to ITI.

CAMPUS SECURITY AUTHORITIES AND LAW ENFORCEMENT

ITI does not have a campus police or law enforcement department. The institution employs campus security personnel, who do not have arrest powers. Campus security personnel and school officials have the authority to ask persons for identification and to determine whether individuals have lawful business at ITI.

ITI's campus is located in unincorporated Miami-Dade County, where law enforcement services are provided by the **Miami-Dade Sheriff's Office (MDSO)**, which in January 2025 assumed the responsibilities of the former Miami-Dade Police Department. Criminal incidents are referred to MDSO, which has jurisdiction over the campus. ITI maintains a professional working relationship with MDSO and will work with local, state and federal law enforcement officials, as necessary, for the safety of its students and staff. ITI does not have a written memorandum of understanding with MDSO for the investigation of alleged criminal offenses. ITI asks MDSO each year for crime statistics for the campus and adjacent public property so that they can be included in this report.

In addition to campus security personnel, the following individuals are designated Campus Security Authorities (CSAs):

Title	Name	Contact
School Director	Ms. Rebeca Rosabal	786-454-5721
Admission Director	Ms. Mirialis Barrios	786-752-0969
President & CEO; Title IX Coordinator	Mr. Edward Cordoba	edward.cordoba@iti.edu 305-554-9281
Campus Security Personnel	—	On site during operating hours

The School Director is responsible for collecting crime statistics and preparing and publishing this report each year. The CSAs are responsible for a timely response to all reported emergencies and criminal incidents.

REPORTING CRIMES AND EMERGENCIES

In an emergency, or whenever a crime is in progress, call **911** immediately. For non-emergency police matters, call MDSO at **305-SHERIFF (305-743-7433)**. Whenever emergency assistance has been summoned, the School Director or another CSA should be notified as soon as possible.

All crimes, emergencies, and security or safety problems occurring on campus or on adjacent public property, including vehicle accidents, injuries, criminal offenses, and suspicious activity, should be reported promptly to the School Director or another CSA listed above. Students may also report to any instructor or staff member, who will relay the report to the School Director. All crime victims and witnesses are strongly encouraged to report crimes promptly to both the institution and MDSO. Prompt reporting allows ITI to issue timely warnings and emergency notifications when appropriate and to disclose accurate crime statistics.

It is ITI's policy that any incident that constitutes a crime under local, state or federal law may be reported to the police. Any activity that would constitute a felony, including but not limited to murder, rape and other sex offenses, robbery, aggravated assault, burglary, arson and motor vehicle theft, will be reported to MDSO, except that a victim of a sex offense, domestic violence, dating violence or stalking may decline to notify law enforcement.

Incident Reports

Incident Report Forms are available from the School Director. Faculty and staff must report crimes and emergencies so that each incident is properly recorded and followed up, and must complete and file an Incident Report Form with the School Director within 48 hours of the incident.

Voluntary Confidential Reporting

If you are the victim of a crime and do not want to pursue action within the school or the criminal justice system, you may still want to consider making a confidential report. With your permission, the School Director can file a report on the details of the incident without revealing your identity. The purpose of a confidential report is to comply with your wish to keep the matter confidential while taking steps to ensure the future safety of yourself and others. With this information, ITI can keep accurate records of the number of incidents, determine whether there is a pattern of crime with regard to a particular location, method or assailant, and alert the campus community to potential danger. Reports filed in this manner are counted and disclosed in the annual crime statistics.

ITI does not employ pastoral counselors or professional counselors. Students and employees who wish to speak confidentially may use the community counseling and victim-advocacy resources listed in this report.

Daily Crime Log

ITI maintains a daily crime log of all crimes reported to campus security personnel or CSAs that occurred on campus, on noncampus property, on public property, or within MDSO's patrol jurisdiction and are reported to ITI. The log records the nature, date, time and general location of each crime and its disposition, if known. Entries are made within two business days of a report. The log for the most recent 60-day period is open to public inspection upon request to the School Director during normal business hours; older portions are made available within two business days of a request. Crime logs are retained for seven years.

TIMELY WARNINGS

ITI will issue a timely warning to the campus community for any Clery Act crime that occurs within ITI's Clery geography, is reported to a CSA or to local police, and is considered by the institution to represent a serious or continuing threat to students and employees. The decision to issue a timely warning is made case by case by the School Director or designee, considering the nature of the crime, the continuing danger to the campus community, and the possible risk of compromising law enforcement efforts.

Timely warnings are issued as soon as pertinent information is available, in a manner that aids in the prevention of similar crimes. They typically include the date, time and nature of the threat and recommended actions, and they withhold the names and other identifying information of victims. Warnings are distributed by email and text message where available, posted notices on campus bulletin boards, and verbal announcements in class. Anyone with information warranting a timely warning should report it immediately to the School Director. If an emergency notification is issued for the same circumstances, a separate timely warning is not required, but ITI will provide follow-up information as needed.

EMERGENCY RESPONSE AND EVACUATION PROCEDURES

ITI maintains an Emergency Response and Evacuation Plan that includes instructions for administration, faculty, staff, students and guests in the event of an emergency. The School Director (referred to in the procedures below as the managing director) is responsible for ensuring the evacuation of the campus and for reporting in the case of an emergency.

Emergency Notification

Upon confirmation of a significant emergency or dangerous situation involving an immediate threat to the health or safety of students or employees on campus, ITI will, without delay and taking into account the safety of the community, determine the content of the notification and initiate the notification system. ITI will do so unless issuing a notification will, in the professional judgment of responsible authorities, compromise efforts to assist a victim or to contain, respond to, or otherwise mitigate the emergency.

Confirmation is made by the School Director or designee, in consultation with MDSO, Miami-Dade Fire Rescue or other first responders as appropriate. The School Director or designee then:

1. Confirms that there is a significant emergency or dangerous situation.
2. Determines the appropriate segment or segments of the campus community to receive a notification, normally the entire campus given its size.
3. Determines the content of the notification, describing the threat and directing individuals to take specific action: lockdown (campus or workplace violence), evacuate (fire, chemical spill, structural hazard), or shelter in place (severe weather, outside hazardous release).
4. Initiates the notification system through in-person and public-address announcements, the fire alarm when evacuation is needed, email, and text or phone messages to students and employees.

ITI will provide follow-up information to the community as needed. Members of the larger community (such as parents and visitors) may obtain emergency information through local media and county alerts. Students and employees are encouraged to register for **Alert Miami-Dade**, Miami-Dade County's emergency notification system, available on the Miami-Dade County website (miamidade.gov).

Testing the Emergency Response and Evacuation Procedures

ITI tests its emergency response and evacuation procedures at least once each calendar year and, in practice, at least twice annually. Tests may be announced or unannounced and may be any combination of building evacuation (fire, toxic exposure, armed assailant), lockdown, or shelter-in-place (hurricane or severe weather) exercises. ITI publicizes its emergency response and evacuation procedures to students and employees in conjunction with at least one test each calendar year. Each test is documented with a description of the exercise, the date, the start and end times, and whether it was announced or unannounced. Exercise reports are maintained in the campus safety log.

Building Evacuation

Evacuation is ordered when it is unsafe to remain in the building, for example due to smoke or fire, a natural or man-made disaster, a structural failure, or a chemical, biological or radiological release on or near the campus.

1. The managing director or designee announces the evacuation and initiates the evacuation procedure.
2. The managing director or designee calls 9-1-1 or activates the building fire alarm.
3. Visitors, students and staff immediately exit by the nearest marked exit to the designated assembly point. Do not stop to gather belongings. Exit locations are posted in each classroom; occupants should familiarize themselves with the closest exit.
4. Occupants should escape danger rather than fight it. Assist others only if doing so does not place your own life in jeopardy. Any fire extinguished by school personnel, regardless of size, requires a fire department response.
5. If it is safe to do so, the managing director or designee checks classrooms, labs and staff areas as people exit.
6. Instructors take attendance at the assembly point using class rosters; managers account for staff and visitors. Missing persons are reported to the managing director and first responders. No one may leave until all occupants are accounted for.

7. Occupants remain at the assembly point until instructed otherwise. Once first responders determine the threat no longer exists, the managing director announces the "all clear."
8. The managing director determines, in consultation with ITI administration, whether classes resume or are dismissed for the day, and records all pertinent information on the ITI Incident Report Form within two days of the event.

Shelter in Place: Hurricanes, Severe Weather and Hazardous Releases

South Florida is subject to hurricanes, tropical storms, severe thunderstorms and occasional tornadoes. ITI monitors National Weather Service and Miami-Dade County Office of Emergency Management advisories and will close the campus in advance of a hurricane or tropical storm when directed by county officials or when conditions warrant. Closures are communicated by email, text message and telephone.

1. The managing director or designee announces the shelter-in-place advisory.
2. For a tornado or severe wind, move quickly to an interior room or hallway on the lowest floor, away from doors, windows and outside walls; avoid large open-span rooms.
3. For a chemical or biological release near campus, close all exterior doors and windows, seal gaps if necessary, shut off air-handling systems and ignition sources, and remain inside.
4. Remain in place until the proper authority determines it is safe. Affected areas are not reopened until cleared by the appropriate agency and authorized by the managing director.
5. The managing director records all pertinent information on the ITI Incident Report Form within two days of the event.

The Federal Emergency Management Agency offers preparedness information at www.ready.gov.

Lockdown

A lockdown is ordered when there is a threat of violence or gunfire on or near campus, or when directed by law enforcement.

1. The managing director or designee announces the lockdown and calls 9-1-1.
2. If it can be done safely, entry doors to the campus are locked.
3. Remember **RUN – HIDE – FIGHT**. If escape is possible, get out. If not, hide in a room that can be locked or barricaded, out of sight of windows.
4. Lock or barricade classroom and lab doors, close blinds, turn off lights, silence phones and remain quiet. Do not evacuate if an active shooter is suspected in the building, even if the fire alarm sounds.
5. When law enforcement arrives, keep your hands visible and follow their directions. Do not leave campus until you have been accounted for.
6. Once law enforcement determines the threat no longer exists, the managing director announces the "all clear," accounts for all students, staff and visitors, and determines whether classes will resume.

Medical Emergency

1. Alert the managing director or any staff member, who will call 9-1-1.
2. Staff trained in first aid may render aid until first responders arrive but should not provide medical opinions or advice.
3. The managing director or designee meets first responders and directs them to the individual.
4. The managing director records all pertinent information on the ITI Incident Report Form within two days of the event.

Bomb Threat or Suspicious Package

1. The person receiving a threatening call keeps the caller on the line as long as possible, stays calm, and signals someone else to notify the managing director and call 9-1-1. Note the caller's voice, accent and background noise, and try to learn where the device is, when it is set to go off, what it looks like, and why it was placed.
2. Report any unattended or suspicious package to the managing director immediately. Do not touch or move it, and do not use cell phones or radios near it.

3. The managing director or designee calls 9-1-1, evaluates the threat with law enforcement, and, if indicated, evacuates the building using the evacuation procedure above.
4. Once the responding agency gives the "all clear," the managing director determines whether classes will resume.

ACCESS TO CAMPUS FACILITIES

ITI's administrative offices and training facility at 9600 SW 8th St #44, Miami, FL 33174 are open to students and staff from 8:00 a.m. to 10:00 p.m. During business hours, the facility is open to students, parents, employees, contractors, guests and invitees. During non-business hours, access is by key, if issued, or by admittance by the School Director. During extended closures, only individuals with prior written approval are admitted.

Individuals who are not students or employees are not permitted in instructional areas unless accompanied by a staff member or authorized by an appropriate school employee. Emergencies may require changes to posted schedules.

Security Considerations in the Maintenance of Facilities

ITI maintains its facility in a manner that minimizes hazardous conditions. Areas identified as problematic receive security surveys examining issues such as locks, alarms, lighting, landscaping and communications. The School Director, campus security personnel and maintenance staff meet regularly during the academic year to review safety and security concerns and correct deficiencies.

Personal Belongings

Students and staff should keep personal belongings secured. ITI cannot be held responsible for the theft or loss of personal belongings.

SECURITY AWARENESS AND CRIME PREVENTION PROGRAMS

Crime prevention and personal safety concern all staff, faculty and students at ITI. Students receive information about campus security procedures and practices, and about their responsibility for their own security and the security of others, during new-student orientation and annually when this report is distributed. Employees receive the same information during new-employee orientation and annually. The School Director or designee directs each new student and employee to this report, reviews campus-specific reporting and emergency procedures, and communicates any change to these policies to current students and staff within five days of the change.

Throughout the year, ITI offers awareness programs for students and employees on personal safety, crime prevention, prevention of sexual assault, dating violence, domestic violence and stalking, hazing prevention, and drug and alcohol abuse prevention. Presentations may be given by ITI staff or guest speakers, including law enforcement and victim-services professionals. Programs are announced on student bulletin boards and by email.

ALCOHOL AND DRUG-FREE SCHOOL AND WORKPLACE POLICY

This policy is adopted in accordance with the Drug-Free Schools and Communities Act and its implementing regulations (34 CFR Part 86) and the Drug-Free Workplace Act (41 U.S.C. Chapter 81). The intent of this policy is to make clear that illegal drugs and alcohol abuse are incompatible with studying or working at ITI, and to offer help to those who need it.

Standards of Conduct

ITI explicitly prohibits:

- The unlawful possession, use, solicitation, manufacture, distribution or sale of illicit drugs or alcohol, including prescription medication without a valid prescription, on ITI premises or within a 200-foot perimeter of property owned, leased, operated or controlled by ITI, or at any ITI-sponsored activity, on or off site.
- Being impaired by or under the influence of drugs or alcohol while at school, at work, on ITI premises, at an externship site, or on school business.

- Possession, use, solicitation or sale of drugs or alcohol away from school premises when that conduct adversely affects work or academic performance, the safety of the individual or others, or the institution.

The sale of alcoholic beverages without a proper license is unlawful in Florida (F.S. 562.12), and under Florida law it is unlawful for any person under 21 to possess alcoholic beverages (F.S. 562.111). Although Florida permits the medical use of marijuana under state law, marijuana remains a controlled substance under federal law, and its possession or use on ITI property or at ITI activities is prohibited.

Institutional Sanctions

ITI will impose disciplinary sanctions on students and employees who violate these standards of conduct, consistent with local, state and federal law. Sanctions may include a warning, required completion of an education or treatment program, probation, suspension, and expulsion from school or termination of employment. Violators may also be referred to law enforcement for prosecution. To assist in enforcing drug and underage drinking laws, ITI may notify local and state law enforcement when a violation occurs.

ITI may require an employee to submit to a drug or alcohol test **for cause**, meaning when there is reasonable suspicion of impairment, such as evidence of drugs or alcohol on or near the employee, conduct suggesting impairment, negative performance patterns, or unexplained absenteeism. ITI may also require a test **after an accident**, when an on-the-job accident or injury occurs under circumstances suggesting possible drug or alcohol involvement. An employee will be given an opportunity to explain the circumstances before any final employment action is taken.

Legal Sanctions

Violations of drug and alcohol laws carry criminal penalties. Examples under Florida law:

- Possession of a controlled substance is generally a third-degree felony, punishable by up to 5 years in prison and a \$5,000 fine (F.S. 893.13).
- Possession of 20 grams or less of cannabis without a valid medical marijuana authorization is a first-degree misdemeanor, punishable by up to 1 year in jail and a \$1,000 fine (F.S. 893.13).
- Sale, manufacture or delivery of a controlled substance may be a first-, second- or third-degree felony. The penalty increases significantly within 1,000 feet of a school or college.
- Possession of alcohol by a person under 21 is a second-degree misdemeanor for a first offense (F.S. 562.111). Selling or giving alcohol to a person under 21 is also a crime (F.S. 562.11).
- Driving under the influence carries fines, license suspension and possible imprisonment (F.S. 316.193).

Federal law (21 U.S.C. § 844 and related provisions) also provides penalties for possession and trafficking of controlled substances, including imprisonment, fines, forfeiture of property, and loss of eligibility for certain federal benefits. Florida courts may offer eligible defendants pretrial intervention or drug court programs (F.S. 948.08 and 397.334), which require supervised treatment and monitoring. Failure to complete these programs can result in prosecution and sentencing on the original charge.

Drug and Alcohol Abuse Education, Prevention and Assistance

Substance abuse can affect anyone. ITI encourages anyone who is struggling with drugs or alcohol, or who is concerned about a family member, friend or co-worker, to seek help. Speak to the person in a supportive, non-confrontational way and encourage treatment. ITI provides drug and alcohol abuse prevention information during orientation and in its annual awareness programming. The following confidential resources are available:

Resource	Contact
SAMHSA National Helpline (free, confidential, 24/7 treatment referral)	1-800-662-4357
988 Suicide & Crisis Lifeline	Call or text 988
211 Miami (community resource and crisis helpline)	Dial 2-1-1
Miami Behavioral Health Center	3850 West Flagler Street, Miami, FL 33134 305-774-3300

ITI distributes this policy annually to all students and employees and conducts a biennial review of its drug and alcohol abuse prevention program to determine its effectiveness, implement needed changes, and ensure that sanctions are consistently enforced.

WEAPONS

The unauthorized possession or use of any weapon on ITI property, at an externship site, or at any ITI-sponsored activity is strictly prohibited and is cause for immediate dismissal. Weapons include firearms, ammunition, explosives, knives and any other item used or intended to be used to threaten or cause harm. Violations will also be reported to law enforcement.

HAZING

Policy Statement

ITI prohibits hazing in any form, whether it occurs on or off campus and regardless of the willingness of any person to participate. Although ITI does not have recognized student clubs or organizations, this policy applies to all students, employees and any group of students.

Definitions

Under the Stop Campus Hazing Act, **hazing** means any intentional, knowing or reckless act committed by a person, whether individually or in concert with others, against another person or persons regardless of the willingness of such other person or persons to participate, that is committed in the course of an initiation into, an affiliation with, or the maintenance of membership in a student organization, and that causes or creates a risk, above the reasonable risk encountered in the course of participation in the institution or the organization, of physical or psychological injury. Examples include:

- Whipping, beating, striking, electronic shocking, placing of a harmful substance on someone's body, or similar activity.
- Causing, coercing or otherwise inducing sleep deprivation, exposure to the elements or confinement to a small space, extreme calisthenics, or other similar activity.
- Causing, coercing or otherwise inducing another person to consume food, liquid, alcohol, drugs or other substances.
- Causing, coercing or otherwise inducing another person to perform sexual acts.
- Any activity that places another person in reasonable fear of bodily harm through threatening words or conduct.
- Any activity against another person that includes a criminal violation of local, state, tribal or federal law.
- Any activity that induces, causes or requires another person to perform a duty or task that involves a criminal violation of local, state, tribal or federal law.

A **student organization** is an organization at ITI, such as a club, society, association or other group, in which two or more of the members are enrolled students, whether or not the organization is established or recognized by ITI.

Under Florida law (F.S. 1006.63), hazing is any action or situation that recklessly or intentionally endangers the mental or physical health or safety of a student for purposes including initiation or admission into, or affiliation with, any organization. Hazing that results in serious bodily injury or death is a third-degree felony, and hazing that creates a substantial risk of physical injury or death is a first-degree misdemeanor. Consent of the victim is not a defense.

How to Report Hazing

Anyone who experiences, witnesses or learns of hazing should report it to the School Director (786-454-5721) or any Campus Security Authority listed in this report. Reports may be made anonymously in writing to the School Director. If anyone is in immediate danger, call 911.

Investigation Process and Sanctions

The School Director, or a designee who has no conflict of interest, will promptly investigate each report. The investigation includes interviews of the reporting person, the respondent(s) and witnesses and a review of relevant evidence. Respondents will be notified of the allegations and given an opportunity to respond. Findings are made using the preponderance of the evidence standard, and the parties are notified in writing of the outcome. Students found responsible are subject to sanctions up to and including expulsion; employees are subject to discipline up to

and including termination. Conduct that may be criminal will be referred to law enforcement. Any student organization found responsible for a violation will be listed in ITI's Campus Hazing Transparency Report.

Campus Hazing Transparency Report

As required by the Stop Campus Hazing Act, ITI publishes a Campus Hazing Transparency Report on its website, updated at least twice each year, identifying any student organization found responsible for a violation of ITI's hazing policy. To date, no findings have been made.

Hazing Prevention and Awareness Programs

ITI's hazing prevention program includes information on hazing, this policy, and how to report hazing, provided to all new students during orientation and to employees during new-employee orientation, with annual reminders when this report is distributed. The program is designed to reach the entire campus community and to encourage students to recognize hazing, understand that consent does not make hazing acceptable, and intervene safely as bystanders.

SEXUAL ASSAULT, DATING VIOLENCE, DOMESTIC VIOLENCE AND STALKING

Policy Statement

ITI prohibits the offenses of dating violence, domestic violence, sexual assault and stalking, as defined below. These offenses violate ITI policy and are subject to disciplinary action, up to and including expulsion or termination of employment, in addition to any criminal penalties. ITI is committed to maintaining a safe work and academic environment free of sexual misconduct. ITI also prohibits sex discrimination, including sexual harassment, under Title IX of the Education Amendments of 1972.

When a student or employee reports to ITI that he or she has been a victim of dating violence, domestic violence, sexual assault or stalking, whether the offense occurred on or off campus, ITI will provide a written explanation of the person's rights and options as described in this section.

Title IX Coordinator

Mr. Edward Cordoba, President & CEO, Title IX Coordinator

InterAmerican Technical Institute, 9600 SW 8th St #44, Miami, FL 33174 | 305-554-9281 | edward.cordoba@iti.edu

Definitions Under the Clery Act (34 CFR 668.46)

Dating violence is violence committed by a person who is or has been in a social relationship of a romantic or intimate nature with the victim. The existence of such a relationship is determined based on the reporting party's statement and with consideration of the length of the relationship, the type of relationship, and the frequency of interaction between the persons involved. Dating violence includes, but is not limited to, sexual or physical abuse or the threat of such abuse. It does not include acts covered under the definition of domestic violence.

Domestic violence is a felony or misdemeanor crime of violence committed by a current or former spouse or intimate partner of the victim; by a person with whom the victim shares a child in common; by a person who is cohabitating with or has cohabitated with the victim as a spouse or intimate partner; by a person similarly situated to a spouse of the victim under the domestic or family violence laws of the jurisdiction in which the crime occurred; or by any other person against an adult or youth victim who is protected from that person's acts under the domestic or family violence laws of that jurisdiction.

Sexual assault is an offense that meets the definition of rape, fondling, incest or statutory rape as used in the FBI's Uniform Crime Reporting program:

- **Rape:** the penetration, no matter how slight, of the vagina or anus with any body part or object, or oral penetration by a sex organ of another person, without the consent of the victim.
- **Fondling:** the touching of the private body parts of another person for the purpose of sexual gratification, without the consent of the victim, including instances where the victim is incapable of giving consent because of age or temporary or permanent mental incapacity.
- **Incest:** sexual intercourse between persons who are related to each other within the degrees wherein marriage is prohibited by law.

- **Statutory rape:** sexual intercourse with a person who is under the statutory age of consent. In Florida, the age of consent is 18.

Stalking is engaging in a course of conduct directed at a specific person that would cause a reasonable person to fear for his or her safety or the safety of others, or to suffer substantial emotional distress.

Definitions Under Florida Law

Domestic violence (F.S. 741.28): any assault, aggravated assault, battery, aggravated battery, sexual assault, sexual battery, stalking, aggravated stalking, kidnapping, false imprisonment, or any criminal offense resulting in physical injury or death of one family or household member by another family or household member. "Family or household member" includes spouses, former spouses, persons related by blood or marriage, persons who are or were residing together as a family, and persons who have a child in common.

Dating violence (F.S. 784.046): violence between individuals who have or have had a continuing and significant relationship of a romantic or intimate nature. The relationship must have existed within the past six months, must have been characterized by the expectation of affection or sexual involvement, and must have involved interaction over time and on a continuous basis. It does not include violence in a casual acquaintanceship or between individuals who have only engaged in ordinary fraternization in a business or social context.

Sexual assault: Florida law does not use the term "sexual assault." The comparable offense is **sexual battery (F.S. 794.011)**, meaning oral, anal or female genital penetration by, or union with, the sexual organ of another, or the anal or female genital penetration of another by any other object, without consent. Sexual battery does not include an act done for a bona fide medical purpose.

Stalking (F.S. 784.048): willfully, maliciously and repeatedly following, harassing or cyberstalking another person. Aggravated stalking includes making a credible threat to the person, or stalking in violation of an injunction or court order.

Consent (F.S. 794.011): intelligent, knowing and voluntary consent, which does not include coerced submission. Consent shall not be deemed or construed to mean the failure by the alleged victim to offer physical resistance to the offender. For purposes of ITI's disciplinary process, consent must be clear, knowing and voluntary. It cannot be given by a person who is incapacitated by alcohol or drugs, asleep, unconscious, or otherwise unable to understand the nature of the act. Consent to one act does not imply consent to another, past consent does not imply future consent, and consent may be withdrawn at any time. Giving in is not the same as giving consent.

Primary Prevention and Awareness Programs

ITI's primary prevention and awareness program is provided to all incoming students and new employees during orientation. It includes a statement that ITI prohibits dating violence, domestic violence, sexual assault and stalking; the definitions of these offenses and of consent in Florida; safe and positive options for bystander intervention; information on risk reduction; and the information in this section about reporting, disciplinary procedures, possible sanctions, and available services. Ongoing prevention and awareness campaigns for students and employees include the annual distribution of this report, posted materials, and periodic presentations by ITI staff or outside professionals.

Recognizing Abusive Behavior

Abuse can be emotional, verbal, psychological, sexual or physical. Warning signs include frequent yelling at a partner, blaming a partner for one's own faults, name-calling, controlling behavior, constant accusations of infidelity, isolation from friends and family, and any physical violence or forced sexual activity.

Bystander Intervention

Bystander intervention means safe and positive options that may be carried out by an individual or individuals to prevent harm or intervene when there is a risk of dating violence, domestic violence, sexual assault or stalking.

- Notice the situation and evaluate whether someone needs help.
- Assume responsibility. Be ready to act even if others do not.
- Speak up if you see someone being pressured, isolated, or given alcohol with apparent intent to incapacitate them, or leaving with someone while intoxicated.
- Remind friends that sexual contact with an incapacitated person is against the law.
- Use distraction or diversion, such as interrupting the situation, or recruit help from others or staff.

- Offer support to a person you suspect is being abused, and model respectful behavior.
- Keep yourself safe. Call 911 whenever you feel it is necessary.

Risk Reduction

Risk reduction means options designed to decrease perpetration and bystander inaction, and to increase empowerment for victims in order to promote safety and to help individuals and communities address conditions that facilitate violence. Responsibility for sexual violence always rests with the perpetrator, never with the victim.

- Be aware of your surroundings. Walk with others to your car, and have your keys ready.
- Do not accept rides from people you do not know.
- When meeting someone new, meet in a public place, tell a friend where you are going and when you expect to return, and have a plan to leave.
- Communicate your boundaries clearly. It is never too late to say "no."
- Trust your instincts. If someone makes you uncomfortable, leave the situation.
- Watch your drink and do not leave it unattended.

Procedures Victims Should Follow

If you are the victim of sexual assault, dating violence, domestic violence or stalking:

- Get to a safe place and call 911 if you are in danger.
- Seek medical attention. The **Roxcy Bolton Rape Treatment Center** at Jackson Memorial Hospital (1611 NW 12th Ave, Miami, FL 33136; 305-585-7273) provides free, confidential 24-hour medical care, forensic examinations and counseling.
- Preserve evidence. It may be needed to prove the offense or to obtain a protective order. If possible, do not bathe, shower, douche, use the restroom, brush your teeth, eat or drink, or change clothes before a medical exam. Place any clothing already removed in a paper (not plastic) bag. Do not clean the area where the assault occurred. For dating violence, domestic violence and stalking, keep text messages, emails, social media posts, voicemails, photographs of injuries, and a written log of incidents.
- Note the names and descriptions of anyone who may have witnessed the incident.

Reporting Options

Victims have the right to report the offense to law enforcement, to the school, to both, or to neither. Reports should be made as soon as possible.

- **Law enforcement:** call 911, or MDSO at 305-SHERIFF (305-743-7433). The MDSO Special Victims Bureau (1701 NW 87 Ave, Suite 100, Doral, FL 33172; Sexual Crimes 305-715-3300) investigates sexual offenses.
- **ITI:** the Title IX Coordinator (305-554-9281, edward.cordoba@iti.edu), the School Director (786-454-5721), the Admission Director (786-752-0969), or the Financial Aid Office (305-504-0751).

Victims have the option to notify law enforcement, to be assisted by ITI personnel in notifying law enforcement if they choose, or to decline to notify law enforcement. Filing a police report does not obligate a victim to prosecute.

Protective Orders

Victims may seek an injunction for protection from the Miami-Dade County Clerk of Court, Domestic Violence Unit, for domestic violence (F.S. 741.30), dating violence, sexual violence and repeat violence (F.S. 784.046), or stalking (F.S. 784.0485). There is no filing fee. Assistance is available from the Miami-Dade County Court (305-324-2900), the State Attorney's Office (305-547-0100; Domestic Crimes Unit 305-547-0140; Sexual Battery Unit 305-547-0115), and the victim-service organizations listed below. ITI will fully comply with and help enforce any protective order, no-contact order, restraining order or similar lawful order issued by a criminal, civil or tribal court or by ITI. A person who holds such an order should provide a copy to the School Director. ITI may also issue institutional no-contact directives.

Services, Accommodations and Protective Measures

ITI will provide written notification to students and employees who report victimization about available services, both on campus and in the community, including counseling, health, mental health, victim advocacy, legal assistance,

visa and immigration assistance, student financial aid, and other services (see the Resource Directory at the end of this report).

ITI will also provide written notification of available options for, and assistance in changing, academic, transportation and working situations, and protective measures. Examples include changes to class schedules or sections, externship site assignments, work schedules, assistance with transportation, and no-contact directives. ITI will make such accommodations and protective measures available if the victim requests them and if they are reasonably available, regardless of whether the victim chooses to report the crime to law enforcement. To request accommodations or protective measures, contact the Title IX Coordinator.

Confidentiality

ITI will maintain as confidential any accommodations or protective measures provided to a victim, to the extent that doing so does not impair its ability to provide them. ITI will protect the identity of any alleged victim, witness or third-party reporter, and will not include personally identifying information about the victim in publicly available recordkeeping, including the Clery Act daily crime log and timely warnings, unless that person specifically waives confidentiality or disclosure is required by law.

Institutional Disciplinary Procedures

ITI's disciplinary procedures for cases of alleged dating violence, domestic violence, sexual assault and stalking apply to students and employees. Conduct that also constitutes sexual harassment under Title IX is addressed under ITI's Title IX grievance process, which follows the Department of Education's Title IX regulations (34 CFR Part 106) currently in effect.

ITI's proceedings will:

- Provide a prompt, fair and impartial process from the initial investigation to the final result. Proceedings are generally completed within 60 to 90 days of a report; the timeline may be extended for good cause, with written notice to both parties explaining the reason.
- Be conducted by officials who do not have a conflict of interest or bias for or against the accuser or the accused, and who receive annual training on these offenses and on how to conduct an investigation and hearing process that protects the safety of victims and promotes accountability.
- Provide the accuser and the accused equal opportunities to have others present during any meeting or proceeding, including the opportunity to be accompanied by an advisor of their choice. ITI does not limit the choice of advisor, but may restrict the advisor's participation, applying any restrictions equally to both parties.
- Provide timely notice of meetings at which the accuser or accused, or both, may be present.
- Provide the accuser, the accused and appropriate officials timely and equal access to any information that will be used during informal and formal disciplinary meetings and hearings.
- Use the **preponderance of the evidence** standard, meaning it is more likely than not that the policy violation occurred.

Steps in the Process

1. **Report and initial assessment.** The Title IX Coordinator contacts the reporting party, provides written information about rights, options, resources and supportive measures, and determines whether the matter will proceed under the Title IX grievance process or the procedures below.
2. **Notice.** When an investigation begins, both parties receive written notice of the allegations, the process, and their right to an advisor.
3. **Investigation.** A trained investigator interviews the parties and witnesses, gathers evidence, and gives both parties an equal opportunity to review and respond to the evidence before a final investigative report is completed.
4. **Determination.** A trained decision-maker, who is not the investigator or the Title IX Coordinator, determines whether a policy violation occurred and, if so, the sanction. For Title IX sexual harassment matters, this includes a live hearing at which each party's advisor may ask relevant questions of the other party and witnesses.
5. **Written outcome.** Both parties are simultaneously informed in writing of the result of the proceeding, including any sanction and the rationale; the procedures for appeal; any change to the result before it becomes final; and when the result becomes final.

6. **Appeal.** Either party may appeal in writing within five business days of receiving the outcome, on the grounds of procedural irregularity that affected the outcome, new evidence that was not reasonably available and could affect the outcome, or conflict of interest or bias. Appeals are decided by ITI's Designated Appeals Officer, who did not take part in the investigation or determination. Appeals may be submitted through the School Director. Both parties are notified of the appeal result simultaneously and in writing.

Possible Sanctions and Protective Measures

Following a final determination, ITI may impose one or more of the following sanctions: written warning; required counseling or education; no-contact directive; change of class schedule or externship placement; disciplinary probation; suspension; expulsion from the institution; and, for employees, suspension or termination of employment. Protective measures available to the victim include no-contact directives, schedule changes, and the other accommodations described above.

Retaliation

ITI prohibits retaliation against any person who reports an offense, files a complaint, or participates in an investigation or proceeding. Retaliation is a separate violation of ITI policy and will result in disciplinary action.

REGISTERED SEX OFFENDERS

Information about registered sexual offenders and predators in Florida, including those who may be enrolled at, employed by or volunteering at ITI, is available from the Florida Department of Law Enforcement (FDLE) Sexual Offender and Predator Registry at **offender.fdle.state.fl.us** or by calling 1-888-357-7332. Information is also available from the Miami-Dade Sheriff's Office.

RECORDS AND FERPA

Records created and maintained by ITI's campus security personnel for law enforcement purposes are not education records under the Family Educational Rights and Privacy Act (FERPA). Other information reported to CSAs may be protected education records. FERPA does not prohibit the disclosure of statistical, non-personally identifiable information such as the statistics in this report.

CRIME STATISTICS

The statistics below include Clery Act crimes reported to ITI's Campus Security Authorities and to local law enforcement that occurred on campus, on public property within or immediately adjacent to the campus, and in or on noncampus buildings or property owned or controlled by ITI. ITI does not have on-campus student housing. Statistics include crimes reported through confidential reporting. Crimes are counted in the calendar year in which they were reported.

Statistics were compiled by the School Director from ITI incident reports and CSA reports, and through a request to the Miami-Dade Sheriff's Office for crimes reported within ITI's Clery geography.

Criminal Offenses

Offense	On Campus			Public Property			Noncampus

Hazing

Hazing Incidents (2025)	On Campus	Public Property	Noncampus
Hazing incidents reported	0	0	0

Hazing statistics are required beginning with calendar year 2025. ITI began collecting hazing statistics on January 1, 2025.

Hate Crimes

There were **no hate crimes** reported in 2023, 2024 or 2025 on campus, on public property, or on noncampus property. Hate crimes are reported by category of bias (race, religion, sexual orientation, gender, gender identity, ethnicity, national origin and disability) and include any of the criminal offenses above, as well as larceny-theft, simple assault, intimidation, and destruction, damage or vandalism of property, that are motivated by bias.

Unfounded Crimes

No crimes were withdrawn as "unfounded" by sworn or commissioned law enforcement personnel in 2023, 2024 or 2025.

Definitions of Reportable Locations

- **On campus:** any building or property owned or controlled by ITI within the same reasonably contiguous geographic area and used by ITI in direct support of, or in a manner related to, its educational purposes.
- **Public property:** all public property, including thoroughfares, streets, sidewalks and parking facilities, that is within the campus or immediately adjacent to and accessible from the campus.
- **Noncampus building or property:** any building or property owned or controlled by a recognized student organization, or any building or property owned or controlled by ITI that is used in direct support of its educational purposes, is frequently used by students, and is not within the same reasonably contiguous area as the campus.
